**SALZ**  
WERKE AG

PHARMACEUTICAL QUALITY AT THE HIGHEST  
LEVEL – OUR HIGH-PURITY SODIUM CHLORIDE

## **PHARMACEUTICAL SALT**

---

# OUR PHARMACEUTICAL SALT PRODUCTS

---

**Our high-purity sodium chloride meets the strict requirements of both the European and US pharmacopoeias, offering maximum safety and quality for pharmaceutical applications.**

Thanks to state-of-the-art manufacturing processes, comprehensive HACCP analyses, and the validation of critical process steps, we guarantee exceptionally high chemical and bacterial purity.

Production is carried out in accordance with ISO 9001 standards, including batch-specific certificates of analysis.

## **Flexible & reliable:**

Our pharmaceutical salt is available in various package sizes, from 25 kg bags to big bags and as bulk goods in silo trucks. Through our continuous production, we ensure a year-round supply to the pharmaceutical industry.

## Granulated sodium chloride Ph. Eur./USP

for use in hemodialysis, cosmetics and wellness,  
corrosion testing, and much more.

---

Sodium chloride in excipient quality in granulated form

Remains free-flowing for longer

Unique on the market

Packaging: 25 kg bag, 1,200 kg big bag

---

## Sodium chloride Ph. Eur./USP

for use in hemodialysis, cosmetics and wellness,  
corrosion testing, and much more.

---

Sodium chloride in excipient quality, fine grain size

Packaging: 25 kg bag, 1,000 kg big bag, bulk in silo truck

---

## Sodium chloride API-Quality

for use in penicillin production, IV solutions,  
parenteral dosage forms, injectable preparations,  
and much more.

---

Sodium chloride as active pharmaceutical ingredient,  
fine grain size

GMP & CEP certified

Packaging: 25 kg bag

# ABOUT US.

**Südwestdeutsche Salzwerke AG is one of the largest and most important salt producers in Europe. It employs around 1,100 people at all its locations in the salt, waste disposal, logistics, and tourism divisions.**

Salt has been extracted from the Heilbronn mine for over 125 years. The raw material is also used for the company's own evaporated salt production at the Bad Friedrichshall salt works. Using high-performance state-of-the-art equipment, a wide range of evaporated salt products are manufactured here in various refining steps, including our pharmaceutical salts.

The Bad Reichenhall salt works also produces a wide range of evaporated salt products, in particular our well-known Bad Reichenhaller Alpine and Spice Salts.

## **Please contact us!**

We will be happy to provide you with a customized quote and send you further information about our products.
